Dynamic Meetings

Changing the dynamics of how you interact for
dramatic results!

Elements of lighting, furniture, and connectivity
blend to provide flexible solutions that enhance
productivity and collaboration at your next
important meeting.

First in industry use of Philips Activiva Lighting
allows you to adjust and control the look and feel
of the room with settings which include Morning,
Break, Evening, and Audio Visual Presentation.
Proven scientifically to impact energy, and augment
productivity - the setting is yours to choose
depending on your goals.

Get comfortable as a team or with smaller groups
within our space using modern Steelcase furniture.

Easily moveable and adaptive with multiple
connectivity options and un-obtrusive acoustic
sound panels, each piece is chosen to allow your
group to adapt to their own needs, and to facilitate
today's multi-tasking environment.

Plug in your laptop, connect to the internet, charge
your blackberry, share your presentation on built in
screens, and enjoy your coffee easily with custom
designed flat surfaces and technological capability
to keep your agenda going smoothly.

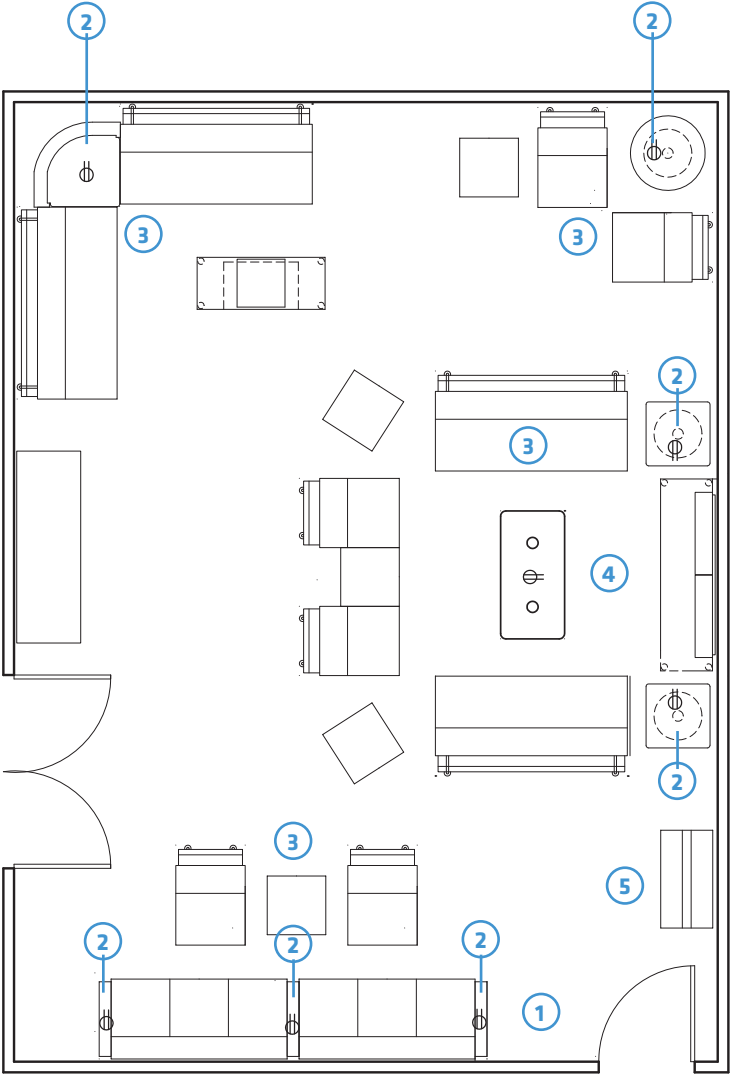

Make your next meeting Dynamic and drive the
successful change you need!

Adaptive Meetings Space Features

- 1 PHILIPS LIGHTING FEATURING ACTIVIVA**
Five scenes using architectural lighting to change the look and feel of room and enhance productivity at meetings:
 - Morning
 - Activiva Break
 - Evening
